Installation Manual

Detailed Diagram of Aluminium Mirror Components

PARTS LIST

①		②		③	
MIRROR(1 PCS)		1 1/2" SCREW(2 PCS)		WALL PLUG(2 PCS)	

WARNING: Safety glasses should always be worn when working with drill.

Required Tools:

①		②		③		④	 5/16"	⑤	
DRILL		MEASURE TAPE		RUBBER Mallet		DRILL BITS		LEVEL	
⑥		⑦		⑧					
PENCIL		SCREW DRIVERS		SAFETY GLASSES					

Before You Start

Thank you for choosing our Aluminium Mirror. We hope to provide you with the most satisfying product and user experience.

Please read through this manual carefully as it contains important product information and step-by-step instructions on how to install this product. Fail to follow certain conditions of the instruction may affect the warranty of the product.

1. Prior to installation, please inspect boxes for damages due to shipping. If there is any missing part or defecting part, please contact customer service through e-mailing within 7 business days of delivery date. Please note that we will not replace any damaged products or missing parts free of charge after 7 business days of installation of the product. Feel free to contact us if you have any question with your PO number.

2. Please make sure to contact your local building codes with questions on installation standards. Building and plumbing codes may vary by location.

**Choose the Mirror direction - vertical or horizontal.
Follow the appropriate diagram below .**

Vertical Assembly

Horizontal Assembly

STEP 1

Select the desired position of the mirror. Level and mark the location.

STEP 2

Mark the drilling locations and ensure marking are leveled, based on vertical or horizontal mounting. See chart below.

Model No.	Vertical Assembly [Ⓐ]	Horizontal Assembly [Ⓐ]
2430	2 1/4"	1 15/16"
3030	2 1/4"	1 15/16"
3630	1 15/16"	2 1/4"

STEP 3

3.1 Drill holes about 1 1/2" deep at each of the marked locations.

3.2 Insert wall plugs [Ⓓ].

For drywall more than 10-12mm in thickness, please make sure to use specified drywall anchors for installation. For drywall with thickness less than 10-12mm, please make sure to install the brackets on the stud.

STEP 4

Install Screw ② . Leave a gap of 1/8" between the head of the screw and the wall.

STEP 5

Tear off the double-sided tape film from Pad, place the mirror against the wall and slide it down, as shown in Figure 2.

HERRAMIENTAS NECESARIAS:

1  PERFORADORA	2  CINTA MÉTRICA	3  MARTILLO DE GOMA	4  5/16" PUNTAS DE TALADRO	5  NIVEL
6  LÁPIZ	7  DESTORNILLADORES	8  GAFAS DE SEGURIDAD		

Antes de comenzar

Gracias por elegir nuestro Espejo de Aluminio. Esperamos brindarle el producto más satisfactorio y una experiencia de usuario óptima.

Por favor, lea detenidamente este manual, ya que contiene información importante sobre el producto e instrucciones paso a paso sobre cómo instalarlo. No seguir ciertas condiciones de las instrucciones puede afectar la garantía del producto.

1. Antes de la instalación, por favor, inspeccione las cajas en busca de daños durante el envío. Si falta alguna pieza o hay alguna pieza defectuosa, por favor, contacte al servicio al cliente por correo electrónico dentro de los 7 días hábiles posteriores a la fecha de entrega. Tenga en cuenta que no reemplazaremos productos dañados o piezas faltantes de forma gratuita después de 7 días hábiles desde la instalación del producto. No dude en contactarnos si tiene alguna pregunta con respecto a su número de orden de compra.

2. Asegúrese de ponerse en contacto con los códigos de construcción locales si tiene preguntas sobre las normas de instalación. Los códigos de construcción y fontanería pueden variar según la ubicación.

**Seleccione la dirección del espejo: vertical u horizontal.
Siga el diagrama correspondiente a continuación.**

Ensamble vertical

Ensamble horizontal

▪ **PASO 1**

Seleccione la posición deseada del espejo. Nivélelo y marque la ubicación.

■ PASO 2

Marque las ubicaciones de perforación y asegúrese de que las marcas estén niveladas, según el montaje vertical u horizontal. Consulte el gráfico a continuación.

NÚMERO DE MODELO.	Ensamble Vertical ①	Ensamble Horizontal ①
2430	2 1/4"	1 15/16"
3030	2 1/4"	1 15/16"
3630	1 15/16"	2 1/4"

■ PASO 3

3.1 Perfore agujeros de aproximadamente 1 1/2 pulgadas de profundidad en cada una de las ubicaciones marcadas.

3.2 Inserte los tapones de pared ③.

Para paneles de yeso con un grosor superior a 10-12 mm, asegúrese de utilizar los anclajes específicos para paneles de yeso durante la instalación. Para paneles de yeso con un grosor inferior a 10-12 mm, asegúrese de instalar los soportes en el montante.

■ PASO 4

Instale el tornillo ②. Deje un espacio de 1/8 de pulgada entre la cabeza del tornillo y la pared.

■ PASO 5

Despegue la película adhesiva de doble cara de la almohadilla, coloque el espejo contra la pared y deslícelo hacia abajo, según se muestra en la Figura 2.
